LIST OF TABLES

Table 2.1. Categorization of Interactional Modifications in Lee’s (2002) Study 13
Table 2.2. Categorization of IM in Kotter’s (2003) Study 15
Table 2.3. Methodology of Previous Studies 18
Table 2.4. Categorization of Task Types Based on the Relationship between the Interlocutors (X/Y) in Communicating the Information (INF) to Meet the Task Goals 27
Table 2.5. Task Framework Accounting for the Factors in Pica et al., Skehan et al. and Suggested by Research on Technology-Based Tasks 32
Table 3.1. Characteristics of Jigsaw and Decision-Making 36
Table 3.2. Categorization of IMs 40
Table 3.3. Subjects According to First Year of University Enrollment 44
Table 3.4. Dyad Set-up Plan 51
Table 3.5. Final Subject Pairing and Order of Task 52
Table 4.1. Comparison of Total Word Production in Each Dyad in the Tasks 60
Table 4.2. Paired t-test on Total Word Production per Dyad 62
Table 4.3. Comparison of the Average Number of Words per Turn 63
Table 4.4. Comparison of Total Number of Turns in Each Task 64
Table 4.5. Paired t-test on Total Turn Production per Dyad 66
Table 4.6. The Frequency of IMs in Both Tasks Combined 68
Table 4.7. Comparison of IM Type Production between Kotter’s (2003) Study and Present Study 70
Table 4.8. Frequency of IMs in Each Task 71
Table 4.9. IM Rate of Usage Based on the Total Word and Turn Production 73
Table 4.10. Total IM Production Per Dyad 81
Table 4.11. Paired t-test on total IM production per dyad 85
